YOUR  
TOWEL**

## Why Towels

As these products are very useful in the daily life, towels can generate a positive response towards your brand.

We really believe that the best promotional items are those that offer quality and functionality to the market.

### Here to Help

You are welcome to inform your idea, send us the logo and we can prepare some digital proofs and quote each one of it.

Our design team works everyday to prepare good suggestions for towels and labels.

Real samples are also available. We don't charge for it, we need only to ask customer to pay the freight for shipment.

## Branding Techniques

Logo can be applied on the towels in a several different ways.

For branding, we can produce towels in all of the following techniques:

- jacquard weaving
- relief weaving
- border weaving
- embroidery (stitch)

Mixing different techniques is also possible.

## Jacquard Weaving

Dying process of the yarn is the first step to produce these towels.

After have the yarn prepared, we put all colors in the loom and towels are woven with colored yarns.

After loom, confection and packing ends the towels production process.

There are no limitation on colors in the same towel we need first to check the position of objects to check the availability to produce.

Towels produced in jacquard weaving technique requires twisted yarn as raw material.

Possibility to have terry or velour finish on the towels.

These towels are delivered with branded woven label and individual packing in a polybag as standards.

## Relief Weaving

Using twisted yarn as raw material, relief weaving towels are what we call as piece dyed towels.

In this case, towels are woven in the loom in natural color, but with relief logo already.

After woven process, towels goes to dying process one color only.

Sewing and packing finish all the process. Possibility to have terry or velour finish on the towels.

These towels are delivered with branded woven label and individual packing in a polybag as standards.

## Border Weaving

Using a polyester border for logo weaving process, these towels allow to use single yarn as raw material. It's a piece dyed product such as relief woven towels, keeping the same quality we can have towels at more competitive price.

Body of the towels is plain dyed, however logo can have up to 5 direct colors, woven directly on the towel. The border area does not have terry loops such as the rest of the towel.

These towels are delivered with branded woven label and individual packing in polybag as standards.

## Embroidery (Stitch)

Starting with produced towels, no matter if it has woven logo or artwork, all towels can be finished with an embroidery.

We use the top quality machines for embroidery, what offer a good finish job on towels.

There is no possibility to calculate prices for embroidery without see the artwork, number of stitches must be calculated to calculate the price.

## Bathrobes

Custom made bathrobes is a product also available on our range.

We have white model in stock for fast delivery, but other color is possible to be produce under request.

## Fast delivery

We are prepared to answer and deliver towels in a very short delivery time.

We can inform you the best delivery time we can accept after quote you the towels.

For urgent order, please do not hesitate in to contact us.

## Pantone dyed

your needs are our limit.

All products has a own dying process, what allows you to choose your own pantone colors for the products.

A vibrant, multi-colored striped Fouta blanket is draped over a wooden chair. The blanket features a pattern of horizontal stripes in shades of blue, yellow, red, and white. The bottom edge of the blanket is fringed with white threads. The wooden chair has a slatted back and seat. The text "Custom Made FOUTA" is overlaid in the upper right corner.

Custom Made  
FOUTA

A vibrant, multi-colored striped beach towel is hanging on a wooden slatted rack. The towel features horizontal stripes in shades of yellow, blue, red, and grey on a white background. The stripes vary in width and are arranged in a repeating pattern. The towel is draped over the rack, showing its texture and how it folds.
